

# Midland National Capital Income<sup>SM</sup>

fixed index annuity

with health-activated income multiplier

With the ability to double your income payments when you may need it most, Capital Income is designed specifically to deliver income flexibility with asset protection. It can offer financial peace of mind by helping to ...

## Grow and protect your assets

Take advantage of growth potential, and guarantees that your account will not lose value due to market downturns

## Safeguard your retirement lifestyle

Create a guaranteed lifetime income stream with flexible payout options, and opportunities to increase payments along the way

## Plan for the unexpected

Prepare for personal care costs with a health-activated income multiplier, which can double your payments for up to five years

# Grow and protect your assets with Midland National Capital Income<sup>SM</sup> fixed index annuity

When it comes to planning for retirement, you may need a product that can help protect a portion of your assets from market losses, while also providing you with opportunities for growth. That's where Capital Income gives you an advantage.

## "Lock in" annual interest credits

One advantage of fixed index annuities is a reset feature, which applies to Capital Income no matter which crediting method you choose. With annual reset, any interest credits are added, or credited, to your accumulation value on each contract anniversary and cannot be lost due to market losses.

## Set your strategy

With Capital Income, there are several strategies to choose from that can help your accumulation value grow.

### Fixed account - Guaranteed rate for the first seven years

Premium allocated to the fixed account will be credited interest at a declared fixed account interest rate and is credited daily. Your initial fixed account interest rate is guaranteed for the first seven years. After that, the rate is declared annually.

*In your contract the applicable period of time for your crediting method is referred to as a "term".*

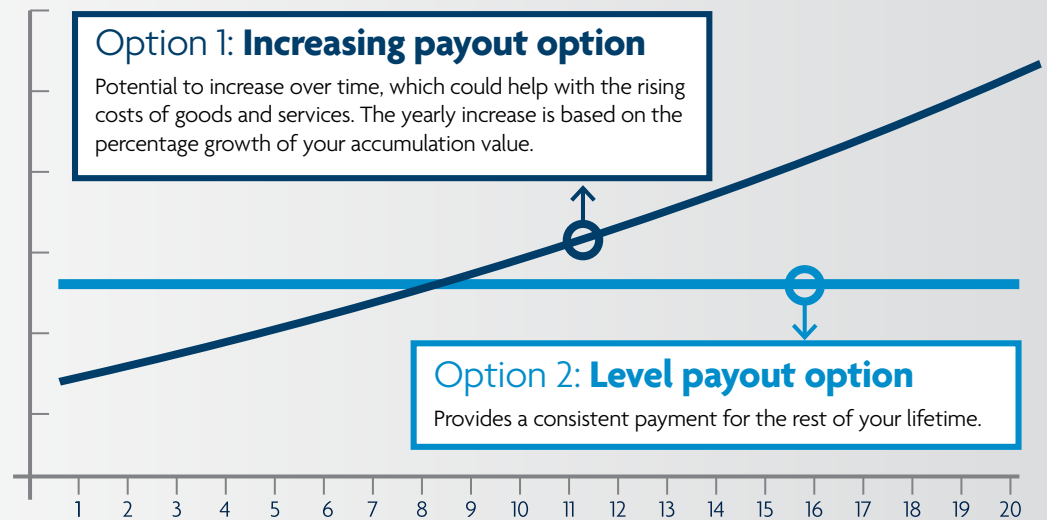

# Safeguard your retirement lifestyle with guaranteed lifetime income

Capital Income is designed to provide guaranteed lifetime income through the embedded guaranteed lifetime withdrawal benefit (GLWB). This feature, for an annual cost, guarantees that a specified amount - the lifetime payment amount (LPA) - can be withdrawn each contract year for your life, even if the accumulation value is reduced to zero (provided no withdrawals in excess of the penalty-free amount are taken).

## Lifetime income options

You can start income after one contract year (must be at least age 50). However, the longer you wait to start income, the higher your LPA will be.

Upon electing income you can choose monthly, quarterly, semi-annual or annual payments.

## Sample lifetime payment percentages (LPPs)

Level and single payout elected

Issue Age	Attained age minus issue age		
	5	10	15
65	5.75%	6.85%	9.70%
70	6.35%	7.95%	12.45%
75	7.20%	9.70%	14.65%

LPPs reflect current rates. Complete LPP chart can be found on page 7.

## How to calculate LPAs

Your LPA is determined by four factors:

1. Your accumulation value
2. How long you wait to start income
3. Which LPA option you select (see options 1 and 2 in chart)
4. Whether single or joint payouts are elected

## GLWB rider cost

An annual rider cost of 1.00% of your end of year accumulation value is deducted from your accumulation value on each contract anniversary until either your contract or GLWB terminates.

Although fixed index annuities guarantee no loss of premium due to market downturns, deductions from your accumulation value for GLWB costs could exceed interest credited to your accumulation value, which would result in loss of premium. The GLWB costs will continue under the spousal continuance feature. The GLWB may be terminated any time after seven years. If you terminate the GLWB, no additional cost will apply, but you will not be reimbursed for costs previously incurred.

## Impact of non-LPA withdrawals

Any non-LPA withdrawals that you may choose to take from your annuity's accumulation value will reduce your future lifetime payments by the same percentage that they reduced your accumulation value. Excess withdrawals, including advisory fees, will reduce your future LPAs.

# Plan for the unexpected with the health-activated income multiplier

If an unpredictable event leaves you unable to perform at least two of the six “Activities of Daily Living” (ADLs) as defined in your contract, your lifetime payment amount can double<sup>1</sup> for up to five years of payments, as long as you continue to meet the requirements on each annual payment date.

## Conditions to activate

To take advantage of the benefit, the following conditions have to be met:

### At issue:

- You must be able to perform all six ADLs on the issue date.
- There is a three-year waiting period from contract issue, and cannot be elected until three months following your lifetime payment election date (LPEd).

### At multiplier election:

- This benefit is available even after the accumulation value has been depleted.
- You must take your maximum LPA to qualify for the benefit, and you cannot stop taking LPAs.
- You must notify us of your election to take the health-activated income multiplier<sup>2</sup>. We will also need to receive written proof, acceptable to us, from a physician who has determined that you are unable to meet two of six ADLs with an expectation the condition(s) are permanent.
- Recertification is required annually.

## See it in action

### Prepare for unexpected personal care costs

Payouts can double for up to five annual payments through the health-activated income multiplier.

1. Multiplier factor is 200% for single payout. Factor will be lower for joint payout. See contract for full details.

2. Known as ADL Benefit Rider in your contract. See contract for full ADL definitions and additional conditions required to elect it. THE ADL BENEFIT RIDER (ALSO KNOWN AS THE HEALTH-ACTIVATED INCOME MULTIPLIER) IS NOT LONG TERM CARE INSURANCE NOR IS IT INTENDED TO REPLACE LONG TERM CARE INSURANCE.

# Additional product details

## Issue ages

Available for issue ages 50 to 80.

## Premium amount

Minimum premium is \$20,000 for qualified and non-qualified. Additional premium is not accepted.

## Tax deferral benefits

Funds grow on a tax-deferred basis, meaning no taxes are owed until you access them. This allows more time for growth potential. Work with your tax advisor to find out how this might work for you.<sup>1</sup>

## Withdrawals

### Surrender charges

There is a seven-year surrender charge period. During this period, a charge is assessed on any amount withdrawn that exceeds the available penalty-free amount. Starting in year eight, there are no further surrender charges.

Y1	Y2	Y3	Y4	Y5	Y6	Y7
6%	6%	5%	4%	3%	3%	2%

### Penalty-free withdrawals

Beginning first contract year, up to 10% of beginning of year accumulation value may be taken each year.

Surrender charges and market value adjustments on any portion of an IRS required minimum distribution exceeding the available penalty-free withdrawal amount will be waived by current company practice.\*

\* A feature offered "by current company practice" is not a contractual guarantee of this annuity contract and can be removed or changed at any time.

### Advisory fees\*

Up to 1.50% of accumulation value, per year, may be withdrawn in installments. Your financial advisor has the option to take advisory fees from this policy or a separate policy.

If taken from this policy, the fee is treated as a standard partial surrender subject to surrender charges and market value adjustment to the extent they exceed any remaining penalty-free partial surrender allowance available.

\* Option to take advisory fees from this policy may not be available in all states.

### Impact of withdrawals

Withdrawals may be treated by the government as ordinary income. If taken prior to age 59 1/2, a withdrawal could also be subject to a 10% IRS penalty. Withdrawals will reduce your accumulation value accordingly.

## Market value adjustment (MVA)

Your contract also includes an MVA feature, which may decrease or increase your surrender value depending on the change in the market value adjustment external index rate since your annuity purchase.

Due to the mechanics of an MVA, surrender values decrease as the MVA external index rate rises. When the MVA external index rate decreases, the surrender value increases. However, the MVA is limited to the surrender charge or the interest credited to the accumulation value.

See the product disclosure for more information.

## Nursing home confinement waiver

(not available in South Dakota)

After your first contract year, if you become confined to a qualified nursing care facility for 90 consecutive days, you can withdraw 100% of your accumulation value without a surrender charge and without application of an MVA. You cannot be confined at the time your contract is issued. This rider is automatically included with your annuity at no additional charge. If joint annuitants are named on the annuity, waiver will apply to the first annuitant who qualifies for the benefit, but not both.

## Annuitization options

You can choose to receive annuity payments based on your choice of several annuity options. Once you elect an annuitization option, it cannot be changed, and all other rights and benefits under the annuity end. The payment amount and number of payments will be based on your annuity's surrender value\* and the annuitization option you choose. See the product disclosure for annuity options available.

\* In FL, the payments are based on the Accumulation Value and the annuitization options may be limited.

## Death benefit

Your beneficiary will receive the greater of the accumulation value or the minimum surrender value. Amounts allocated to an index account will receive partial interest credits from the beginning of the index term to the date of death.

## Spousal continuance

Spousal continuance may only be elected if prior to LPED, and may only be elected one time. Surviving spouse may continue the rider as the new owner/annuitant and new covered person if the surviving spouse would have met the GLWB minimum issue age requirement.

## Lifetime payment percentages (LPPs)

The chart below shows the LPPs for the level payout option and for single income withdrawals.

- If you choose to take your payments based on two lives (joint income), the payouts shown in the table below are multiplied by “95%” at the time you start payments.
- If you choose increasing payments, in exchange for the potential growth in the LPA over time, the payouts shown in the table below are multiplied by “90%” at the time you start your payments.

I. Under current law, annuities grow tax deferred. An annuity is not required for tax deferral in qualified plans. Annuities may be subject to taxation during the income or withdrawal phase. Please note that neither Midland National, nor any financial professionals acting on its behalf, should be viewed as providing legal, tax or investment advice. Consult with and rely on your own qualified advisor.

This brochure is for solicitation purposes only. Please refer to your contract for any other specific information. With every contract that Midland National® Life Insurance Company issues there is a free-look period. This gives you the right to review your entire contract and if you are not satisfied, return it and have your premium returned.

Fixed index annuities are not a direct investment in the stock market. They are long term insurance products with guarantees backed by the issuing company. They provide the potential for interest to be credited based in part on the performance of specific indices, without the risk of loss of premium due to market downturns or fluctuation. Although fixed index annuities guarantee no loss of premium due to market downturns, deductions from your accumulation value for additional optional benefit riders or strategy fees associated with allocations to enhanced crediting methods could exceed interest credited to the accumulation value, which would result in loss of premium. They may not be appropriate for all clients. Interest credits to a fixed index annuity will not mirror the actual performance of the relevant index.

Refer to your contract for further details. The Fidelity Multifactor Yield Index 5% ER (the "Index") is a multi-asset index, offering exposure to companies with attractive valuations, high quality profiles, positive momentum signals, lower volatility and higher dividend yield than the broader market, as well as U.S. treasuries, which may reduce volatility over time. Fidelity and its related marks are service marks of FMR LLC. Fidelity is a registered trademark of FMR LLC. Fidelity Product Services LLC ("FPS") has licensed this index for use for certain purposes to Midland National® Life Insurance Company (the "Company") on behalf of the Product. The Index is the exclusive property of FPS and is made and compiled without regard to the needs, including, but not limited to, the suitability needs, of the Company, the Product, or owners of the Product. The Product is not sold, sponsored, endorsed or promoted by FPS or any other party involved in, or related to, making or compiling the Index. The Company exercises sole discretion in determining whether and how the Product will be linked to the value of the Index. FPS does not provide investment advice to owners of the Product, nor to any other person or entity with respect to the Index and in no event shall any Product contract owner be deemed to be a client of FPS.

Neither FPS nor any other party involved in, or related to, making or compiling the Index has any obligation to continue to provide the Index to the Company with respect to the Product. Neither FPS nor any other party involved in, or related to, making or compiling the Index makes any representation regarding the Index, Index information, performance, annuities generally or the Product particularly.

# Midland National® is a Sammons Financial Group company.

We are committed to our customers, distribution partners, employees and communities – and the deeply rooted belief that we grow stronger together.

With so much change happening in the world, people are looking for companies that can stand the test of time. They need a partner that can weather life's storms. That's us. For over a century, we have been here for our customers and honoring our commitments. And because we're privately owned, we don't measure our impact by the number of years we've been in business, investor goals or size of the company. We are proud of our impact of the financial futures we help secure, and the legacies we help establish.

We believe that we aren't here to serve just today's customers, but customers for generations to come. As we look ahead to our next hundred years, that fundamental principle remains rich in its vision. No matter how much change happens in the world around us, we will find new ways to create value for our customers.

Just like always.
