1. Subject to the terms of the new policy.

2. There are some restrictions based upon the age of the insured at policy issue, but the conversion period is never less than five years. Conversions are allowed according to the following schedule: 10-year term length: the earlier of 7 years or age 70, 15-year term length: the earlier of 12 years or age 70, 20-year term length: the earlier of 15 years or age 70, 30-year term length: the earlier of 20 years or age 70. The conversion period is never less than 5 years regardless of issue age.

3. An administration fee is required at time of election of an accelerated death benefit. The face amount will be reduced by the accelerated death benefit amount. Since benefits are paid prior to death, a discount will be applied to the face amount accelerated. As a result, the actual amount received will be less than the amount of face amount accelerated.
