New business guidelines

Rates will be based on the application signed date if the following two conditions are met:

- (1) Application must have been received in the home office within 10 calendar days from the application signed date; and
- (2) the home office must have received the premium within 60 calendar days of the application signed date. If the 60th calendar day falls on a weekend or holiday, the premium must be received on the business day before the weekend or holiday.

Subsequent contract years

For the index accounts, the rate is effective for the first contract year (or crediting period). In subsequent contract years, rates will be declared on the contract anniversary. For the fixed account, the rate is effective for the first seven contract years and then declared annually thereafter on the contract anniversary. These interest rates and interest credit factors are reflected on the annual statement.

Disclosures

Rates are effective as of publication date and are subject to change. Rates may vary by premium, surrender charge period and/or guarantee period selected.

Index accounts: Crediting methods such as index cap rates, participation rates, and index margins apply to index accounts only; not to the fixed account. Crediting methods and indexes are not available on all products or in all states.

Surrender charge: A surrender during the surrender charge period could result in a loss of premium. Surrender charge structure may vary by state.
