Lock in financial stability with guaranteed rates¹

Oak ADVantage multi-year guarantee annuity (MYGA) is designed to protect your retirement savings and help you enjoy financial freedom. As part of your overall portfolio, it can deliver:

Dependable growth, by locking in your interest rate¹ for either a 3-, 5-, or 7-year guarantee period

Asset protection, with guarantees that your accumulation value will not lose value due to market downturns

Flexible renewal options, including the ability to elect a different period after the initial one ends

Experience guaranteed growth with Oak ADVantage

Oak ADVantage is designed to offer strong interest rates¹, protection from premium loss due to market downturns, and **flexible renewal options** – all to help offer financial peace of mind on your retirement journey.

Tax deferral benefits

Funds grow on a tax-deferred basis, meaning no taxes are owed until you access them. This allows more time for growth potential. Work with your tax advisor to find out how this might work for you.²

Legacy protection

Your beneficiary will receive the greater of the accumulation value or the minimum surrender value minus any applicable premium tax at death as required by the state of residence.

Minimum premium amount

Minimum premium is \$50,000 for qualified and non-qualified. Additional premium is not accepted.

Renewal and payout options

At the end of your guarantee period, you have 30 days to choose your next steps:

- 1) you can surrender your policy, free from penalties,
- 2) you can elect an available payout option, or
- 3) you can re-enter into a new 3-, 5-, or 7- year guarantee period.*

Without action, your policy will be re-entered into the same guarantee period.*

Issue ages

Available for issue ages up to 90.

** Cannot renew into a guarantee period that extends beyond the maturity date. For full details on re-entry and maturity dates, see the product disclosure.*

How it works

Having a guaranteed interest rate¹ means that regardless of market performance, the interest rate won't go down over the guarantee period you've chosen (either 3, 5, or 7).

Assumes \$100,000 premium with either a 3.00% or 6.00% guaranteed interest rate¹ and a 5-year surrender charge period.

Hypothetical examples are for illustrative and educational purposes only and not intended to predict future performance. The use of alternative assumptions could produce significantly different results.

Finer points

Market value adjustment (MVA)

Your contract also includes an MVA, which may decrease or increase your surrender value depending on the change in the market value adjustment external index rate.

Due to the mechanics of an MVA, surrender values decrease as the MVA external index rate rises. When the MVA external index rate decreases, the surrender value increases. The MVA, and the specific limits on your policy, are determined by your state*.

* See the product disclosure and the Understanding the MVA brochure for more information.

Nursing home confinement waiver

(not available in South Dakota)

After your first contract year, if you become confined to a qualified nursing care center (skilled nursing facility or residential care facility for the elderly in California), as defined in the rider, you may withdraw up to 100% of your accumulation value without a surrender charge or MVA as long as you meet the eligibility requirements of this rider. If you withdraw 100% of your accumulation value, your contract will terminate. You cannot be confined at the time your contract is issued. This rider is automatically included with your annuity at no additional charge. If joint annuitants are named on the annuity, the rider will apply to the first annuitant who qualifies for the benefit, but not both.

Annuitization options

You can choose to receive annuity payments based on your choice of several annuity options. Once you elect an annuitization option, it cannot be changed, and all other rights and benefits under the annuity end. The payment amount and number of payments will be based on your annuity's surrender value* and the annuitization option you choose. See the product disclosure for annuity options available.

* In FL, the payments are based on the accumulation value and the annuitization options may be limited.

Advisory fees

You can authorize your financial advisor to take up to 1.0% of the accumulation value each year to pay advisory fees; these withdrawals will reduce the penalty-free withdrawal amount. Advisory fees on non-qualified multi-year guarantee contracts will be treated as normal distributions and taxed accordingly. Advisory fees on qualified contracts are not subject to taxes. Fees are treated as standard partial surrenders subject to surrender charges and market value adjustments to the extent they exceed any penalty-free partial surrender allowance available.

Penalty-free withdrawals

Beginning in year two, an amount up to the prior year's interest credited may be withdrawn without penalty. By current company practice³, you may take a penalty-free withdrawal in the first contract year equal to interest earned in the first year. You may elect to receive interest withdrawal payments on a monthly, quarterly, semi-annual or annual basis, called a systematic withdrawal, these scheduled payments are penalty-free but must be at least \$50 each. IRS-required minimum distributions (RMDs) are not subject to surrender charges or market value adjustments. Withdrawals may be treated by the government as ordinary income. If taken prior to age 59 1/2, a withdrawal could also be subject to a 10% IRS penalty. Withdrawals will reduce your accumulation value accordingly.

Surrender charges

There is a 3-, 5- or 7-year surrender charge period. During this period, a charge is assessed on any amount withdrawn that exceeds the available penalty-free amount. Surrender charges are a level 3.0% in each contract year.

Special notice regarding the use of a living trust as owner or beneficiary of this annuity.

The use of living trusts in connection with an annuity contract can be a valuable planning mechanism. We strongly suggest you seek the advice of your qualified legal advisor concerning the use of a trust with an annuity contract.

Under current law, annuities grow tax deferred. Annuities may be subject to taxation during the income or withdrawal phase. The tax-deferred feature is not necessary for a tax-qualified plan. In such instances, you should consider whether other features, such as the death benefit, lifetime annuity payments, and any other features make the Contract appropriate for your needs.
