

Strategic Protector[®] IUL 2

Life

Indexed universal life insurance | Issued by Midland National[®] Life Insurance Company

Expect more
from **life.**

Indexed universal life insurance is more than most people might expect.

It can help...

- Provide financial help to your family in a time of need
- Supplement your retirement income, generally tax free
- Pay medical bills during an illness
- Pay off debts like credit cards and student loans
- Pay down – or pay off – a mortgage
- Pay college tuition

It can help you get the **most** from your life insurance.

Indexed universal life insurance...

can provide **protection** and **growth** for when you may need it most.

It combines the traditional death benefit protection provided by life insurance, plus the potential for cash value growth linked to the performance of a stock market index with a minimum interest rate guarantee.

Death benefit protection

can be more powerful than you might expect.

Indexed universal life (IUL) insurance pays a benefit to the named beneficiary in the event of the death of the insured. The proceeds from a death benefit can be used to replace an income stream, help pay off a mortgage, minimize student loans, transfer a business, and more. Better yet, the money can pass to the beneficiaries **generally free from income taxes.**¹ IUL insurance is a permanent policy, so it won't expire, as long as the minimum premium payment requirements are met to keep the policy in effect.

Expect the opportunity for cash value **growth** without the risk of directly investing in the stock market.

IUL insurance provides the opportunity to earn interest based on the upward movement of a stock market index. Although growth is based on a stock market index, the premium is not actually invested in the market.

Strategic Protector IUL 2

Protection

Strategic Protector IUL 2 offers a No-Lapse Guarantee², which guarantees the policy will not lapse, as long as the premium requirement specified in the policy is met, for the lesser of 15 years, or age 75, but never less than 10 years.

Guaranteed death benefit

Strategic Protector IUL 2 also offers the Premium Guarantee Rider (PGR), which can be added to extend the death benefit guarantee to age 120 as long as you pay the required premium. This rider can only be added at issue of your policy, and there is a charge that is deducted from the policy's account value.

PGR can help insureds at younger ages lock in coverage at a time when life insurance is the most affordable, or it can help those in higher issue ages gain affordable protection that is often not available.

If PGR is elected, the No-Lapse Guarantee is not available.

Potential growth

Some of the premium payment is used to pay for the costs of insurance. You can allocate the rest to either a fixed account that offers a guaranteed minimum interest rate of 1.5%, an index account linked to the growth of a stock market index or a combination of both. Growth in the index account is tax-deferred³ and credited on the beginning account value prior to taking out the cost of insurance.

How an index account works

At the end of the designated period, the change in index value is calculated using the appropriate index crediting method. If the calculation results in growth, the interest is credited to your policy's beginning account value. If the calculation results in negative growth, or no growth, the value in the index account will remain the same.

For detailed questions about how an index account works or need further clarification, please contact your financial professional. They can provide you with personalized guidance and supplemental materials.

And much more

Never less than zero percent

The index account has a guaranteed minimum zero percent floor and its starting value resets every year. If the index experiences negative growth or no growth, negative credits will not be applied to the index account. The index credited will not be less than zero percent. Bottom line – negative index performance from previous years won't hinder your earning potential in the current year. The index account may also be subject to a cap rate (or a maximum interest rate), spread rate (rate subtracted from the index growth), and participation rate (the portion of index growth) that are used in the calculation of the index credit. The index cap rate, spread rate, floor rate, and participation rate will be declared for each index segment in advance of each index period.

Minimum account value true-up

This feature guarantees a 2.0% average annual return, calculated from policy issue, regardless of whether premiums were allocated to the fixed account or the index account. Every 10 years or upon death, lapse, surrender, or policy maturity, we'll compare the account value to the minimum account value. If the account value is less than the minimum account value, the account value will be increased so that it is at least as large as the minimum account value. The increase will be added to the fixed account. If the account value is greater than the minimum account value, no change is made to the account value or the minimum account value.

Premium recovery if your needs change

Strategic Protector IUL 2 offers a Premium Recovery Endorsement,⁴ a feature that allows you to fully surrender the policy during a 60-day window following policy anniversaries 15, 20, or 25, and recover all or a portion of the total premiums paid less any policy debt or withdrawals, including withdrawal charges and processing fees. If you have previously elected to accelerate the death benefit, the total premiums will also be reduced by the same portion that the death benefit was reduced at the time of that election. This endorsement is only available when the Premium Guarantee Rider is selected.

Interest bonus⁹

In addition to the index and crediting options, Strategic Protector IUL 2 also offers an interest bonus on the index account exclusively for Fidelity Multifactor Yield IndexSM 5% ER.

The index account's current interest rate is increased by a 1.00% bonus in all policy years. The guaranteed bonus rate is 0.50% in all policy years.

There is no interest bonus on the fixed account or any other index option.

Accessing and managing your policy

Manage My Account

Once you become a policyowner with Midland National, you'll be invited to register for an online account that allows you to view and manage your policy.

Annual Statements

Each year, you will receive a statement showing your policy performance. This is a great time to schedule a meeting to review your policy with your financial professional to make sure it is still meeting your needs.

More than you might expect.

Loans and withdrawals⁵

Strategic Protector IUL 2 offers standard loans, variable interest participating policy loans¹⁰, and net zero-cost loans.⁶ For more information and to determine which policy loan type may be right for you, please ask your financial professional for the Accessing Your Cash Value brochure.

Living benefits

The main benefit of life insurance is the invaluable death benefit protection it provides.

Midland National also offers Accelerated Death Benefits, which means you may be able to access a portion of the death benefit while you're living. With Accelerated Death Benefits, the owner can accelerate a portion of the death benefit should the insured meet the criteria of a qualifying event. The funds can be used for any purpose you choose, such as covering illness expenses. Please consult with a qualified legal or tax advisor to review your specific situation. These benefits are included for no additional premium charge at issue on eligible policies.⁷

For more information please ask your financial professional for the Accelerated Death Benefit Endorsement consumer brochure.

Flexibility to meet your needs and goals

Make sure you have the right combination of protection and growth potential in your life insurance policy.

With permanent IUL insurance from Midland National, you can:

- **Choose the amount of death benefit protection that is right for you and your family**
- **Set the amount of premium(s) and the number of years to pay**
- **Decide the frequency of planned premiums (monthly, quarterly, semi-annually, or annually)**
- **Determine a level death benefit or allow it to increase over time**

Choose **Midland National** for your life insurance protection.

Strength and stability since 1906

With over 115 years of business under our belt, Midland National's continued and consistent financial strength is a result of our conservative and disciplined investment strategy, our private ownership structure, and doing what is right for our policyowners.

Privately owned and customer focused

As a privately owned company, Midland National is not subject to the short-term earnings pressures that publicly held companies often face. We are a company with plans to perpetuate itself for hundreds of years, not the next quarter or the next fiscal year. We focus on the long term. We focus on you.

High ratings for financial strength

Independent agency ratings provide a vital picture of an insurer's ability to keep its commitments to you, the customer. As a company, we've received A+ marks from A.M. Best, Fitch Ratings, and S&P Global Ratings.⁸ These ratings are based on financial strength, operating performance, and the ability to meet our obligations to our policyowners and contract holders. Our consistently high ratings have shown that with Midland National, you aren't just buying a product. You're buying a commitment to you and your family.

Contact your **Midland National** financial professional **today** to help customize your life insurance policy to your specific needs.

NOT FOR USE IN OREGON.

1. Neither Midland National nor its agents give legal or tax advice. Please consult with and rely on a qualified legal or tax advisor before entering into or paying additional premiums with respect to such arrangements.

2. Coverage is guaranteed provided no-lapse guarantee premium is met. If you do not meet this requirement, significantly higher premiums may be necessary to keep the policy in effect. Paying a premium that is equal to, but not greater than the no-lapse guarantee premium will keep the policy in effect but may result in a negative or zero account value. By paying only the no-lapse guarantee premium, you may be forgoing the opportunity to build more cash value. Failure to meet premium requirements may result in a lapse in the policy and participation in the index accounts.

3. The tax-deferred feature of the indexed universal life policy is not necessary for a tax-qualified plan. In such instances, you should consider whether other features, such as the death benefit and optional riders make the policy appropriate for your needs. Before purchasing this policy, you should obtain competent tax advice both as to the tax treatment of the policy and the suitability of the product.

4. The Premium Recovery Endorsement will remain in effect to the 25-year policy anniversary as long as the qualification test is satisfied at each policy anniversary. Generally, the qualification test is met if the gross premiums paid guarantee the policy to at least the insured's attained age of 95, assuming no policy loans are taken. In some instances, additional premium may be required based on underwriting class, table ratings, or flat extras. If the Premium Recovery Endorsement terminates, it cannot be reinstated. The Premium Recovery Endorsement is only available if the Premium Guarantee Rider is selected.

5. Policy loans from life insurance policies generally are not subject to income tax, provided the contract is not a Modified Endowment Contract (MEC), as defined by section 7702A of the Internal Revenue Code. A policy loan or withdrawal from a life insurance policy that is a MEC is taxable upon receipt to the extent cash value of the contract exceeds premium paid. Distributions from MECs are subject to federal income tax to the extent of the gain in the policy and taxable distributions are subject to a 10% additional tax prior to age 59 1/2, with certain exceptions. Policy loans and withdrawals will reduce cash value and death benefit. Policy loans are subject to interest charges. Consult with and rely on your tax advisor or attorney on your specific situation. Income and growth on accumulated cash values is generally taxable only upon withdrawal. Adverse tax consequences may result if withdrawals exceed premiums paid into the policy. Withdrawals or surrenders made during a surrender charge period will be subject to surrender charges and may reduce the ultimate death benefit and cash value. Surrender charges vary by product, issue age, sex, underwriting class, and policy year.

6. Net zero-cost loans are loans charged and credited at the same interest rate percentage for a net zero-cost. The policy year and amount available vary by product. Please refer to your policy for details.

7. Accelerated Death Benefits are subject to eligibility requirements. There is no additional Monthly Deduction or premium charge for the Accelerated Death Benefit Endorsement. However, the actual payment received in connection with any acceleration will be discounted and is lower than the Death Benefit amount accelerated. In addition there is an administrative fee required each time an Election is made. The death benefit will be reduced by the amount of the death benefit accelerated. Since benefits are paid prior to death, a discount will be applied to the death benefit accelerated. As a result, the actual amount received will be less than the amount of the death benefit accelerated.

Texas Residents: Receipt of acceleration-of-life-insurance benefits may affect you, your spouse's or your family's eligibility for public assistance programs such as medical assistance (Medicaid), Aid to Families with Dependent Children (AFDC), supplementary social security income (SSI), and drug assistance programs. You are advised to consult with a qualified tax advisor and with social service agencies concerning how receipt of such a payment will affect you, your spouse's and your family's eligibility for public assistance.

8. A.M. Best is a large third-party independent reporting and rating company that rates an insurance company on the basis of the company's financial strength, operating performance, and ability to meet its obligations to contract holders. A+ (Superior) is the second highest rating out of 15 categories, and was affirmed for Midland National as part of Sammons Financial Group on August 13, 2025.

S&P Global Ratings awarded its "A+" (Strong) rating for insurer financial strength on February 26, 2009 and affirmed on May 15, 2025, to Midland National as part of Sammons Financial Group. The A+ (Strong) rating, which is the fifth highest out of twenty-two, reflects the financial strength of Midland National, member of Sammons Financial Group.

A+ Stable Rated by Fitch Ratings. Fitch Ratings, a global leader in financial information services and credit ratings, on June 17, 2025, assigned an Insurer Financial Strength rating of A+ Stable for Midland National. This rating is the fifth highest of 19 possible rating categories. The rating reflects the organization's strong business profile, low financial leverage, very strong statutory capitalization and strong operating profitability supported by strong investment performance. For more information, read the [Fitch Ratings report](#).

The term financial professional is intended to imply engagement in an advisory business in which compensation is not related to sales. Financial professionals that are insurance licensed will be paid a commission on the sale of an insurance product.

9. The current interest bonus for the Fidelity Multifactor Yield IndexSM 5% ER is 1% which is added to the then current interest rate. The index bonus is applied after the participation rate, cap, floor and spread. This bonus is not applied to any loaned amount. The current interest bonus percentages are not guaranteed and subject to change; however, once a policy is issued, the guaranteed percentage will not change.

10. The net cost of a variable interest participating policy loan could be negative if the credits earned are less than the interest charged. The net cost of the loan could also be larger than under standard policy loans if the amount credited is less than the interest charged. In the extreme example, the amount credited could be zero and the net cost of the loan would equal the maximum interest rate charged on variable interest participating policy loans. In brief, Variable Interest Participating Policy Loans have more uncertainty than Standard Policy Loans in both the interest rate charged and the interest rate credited.

The term financial professional is not intended to imply engagement in an advisory business in which compensation is not related to sales. Financial professionals that are insurance licensed will be paid a commission on the sale of an insurance product.

Indexed universal life insurance products are not an investment in the "market" or in the applicable index and are subject to all policy fees and charges normally associated with most universal life insurance.

Life insurance policies have terms under which the policy may be continued in force or discontinued. Current cost of insurance rates and interest rates are not guaranteed. Therefore, the planned periodic premium may not be sufficient to carry the contract to maturity. Failure to meet premium requirements may result in a lapse in the policy and participation in the index accounts. The index accounts are subject to caps and participation rates. In no case will the interest credited be less than 0 percent. Please refer to the customized illustration provided by your agent for additional detail. The policy's death benefit is paid upon the death of the insured. The policy does not continue to accumulate cash value and excess interest after the insured's death. For costs and complete details, call or write Midland National Life Insurance Company, Administrative Office, One Sammons Plaza, Sioux Falls, SD 57193. Telephone 800-923-3223

Sammons Financial® is the marketing name for Sammons® Financial Group, Inc.'s member companies, including Midland National® Life Insurance Company. Annuities and life insurance are issued by, and product guarantees are solely the responsibility of, Midland National Life Insurance Company.

Midland National is a Sammons Financial Group company.

We are employee owned and committed to our customers, distribution partners, employees and communities –and the deeply rooted belief that we grow stronger together.

With so much change happening in the world, people are looking for companies that can stand the test of time. They need a partner that can weather life's storms. That's us. For over a century, we have been here for our customers and honoring our commitments. We are proud of our impact on the financial futures we help secure, and the legacies we help establish.

We believe that we aren't here to serve just today's customers, but customers for generations to come. As we look ahead to our next hundred years, that fundamental principle remains rich in its vision. No matter how much change happens in the world around us, we strive to find new ways to create value for our customers.

Just like always.

Midland National has continued to earn high ratings, based on our financial strength, operating performance, and ability to meet obligations to our policyholders and contract holders. Midland National currently holds the following ratings:

“A+”

A.M. Best⁸ (Superior) (Second category of 15)

S&P Global Ratings⁸ (Strong) (Fifth category of 22)

Fitch Ratings⁸ (Stable) (Fifth category of 19)

Ratings are subject to change.
